Ask for Help

A Postal Will Bring You My Way to Get Well.

You who need help, and are waiting-You who are sick, and are hesitating-You who have projudice-you who doubt-Let me convince you-write today for my book. Then I will send you an order-good at any drug store-for six bottles Dr. Shoop's Restorative. You may take it a month at my risk. If it succeeds, the cost is \$5.50. If it fails, I will pay the druggist myself. And your mere word shall decide it.

Thousands every week are accepting this offer, and most of them get well. Don't you realize that the losses would ruin me if I failed to cure those who write?

The continuance of this offer is proof of my success. In the past 12 years I have formished my Restorative

on trial to over half a million of patients, and my records show that 30 out of each 40 have paid for the treatment gladly, because they were cared. I have willingly paid

My faith in this remedy is the result of a lifetime's experience. I have learned how to strengthen the inside perves—the only way that anybody knows.

My Restorative brings back this nerve power, which gione operates every vital organ. It makes the weak organ strong by giving it power to do its duty. The result is like giving a weak engine more steam.

There is no other way to cure these chronic diseases. The best results from doctoring the organa themselves are

but temporary. No weak organ can ever be permanently strong until its nervé power is strong.

My treatment will always succeed in one case that is curable, and the cases which are not rare. I ask you to tell use a sick one who will try to get well, if I take the whole risk myself,

fabs were followed by open meetings and finally in June, 1899, the Oklahoma City Ditch and Water Power company was organized for the purpose of utilizog the North Canadian river, by constructing a canal about three miles in length, and securing a fail that would furnish two thousand horsepower for propelling the muchinery of such manufactories as would locate in the city.

The officers of the complany included C. W. Price, president; John Wallace ce-president and general manager; C. P. Walker, secretary and Robert Kincade, The directors of the company were: Robert Kincade, J. Wallace, C. W. Price, W. H. Ebey, B. N. Woodson and F. A.

The company was incorporated under the laws of Colorado and commenced act-

ve work in November, 1889. The big ditch, or canal, was completed early in the fall of 1800. It was three miles in length, five feet in depth. fifteen Guthrie, O. T., Dec. 13 .- J. J. Houston, feet wide at the bottom and thirty-five

"There is already located on the canal selection of indemnity lands before the hundred barrels capacity, the electrict light plant (which in addition to lighting the city is to furnish power for the street electric railway, two saw mills, etc. There ridian are filed upon. The special agent gin and a cotton press, for which power of the school land department, C. M. Crocker, has been in Beaver county for the last thirty days examining and recannot well be overestimated, as it must pering upon lands for the purpose of making this selection. There are really so desirable lands in the eastern part of the manufacturing industries that can be located advantageously in Oklahoma the department to select watered lands. The gentlemen at the head of this great it possible, but it was found that the watered lands if possible, but it was found that the watered lands if possible, but it was found that the watered lands were almost entirely filed upon, and the formal land language and far-seeing business men in the territory. To them, Oklahoma City, to a large extent, owes its high commercial position, and in their hands the Oklahoma City, and success April Brown, Bess Alten, Helen Print, Emily Torrington, Daily, London.

When the great canal was completed mill pumps are now used all through the the water was turned in with great celat and flourish of trumpets and shot down the incline with great feeling of exulta-"But, talking about the selection of tion among the citizens and the townthree million acres or the selection of builders rejoiced at the accomplishment

Their exultation was short lived, howsand bills extending back a mile or two grand canal had almost entirely disapfrom the water courses and small streams spared it had almost entirely disapup by the sundy soil of the North Capadian valley, and no feasible means could ever be devised to make the big sieve hold water.

The big bubble had burst! Thousands worm, tetter, old ulcers and sores, pimples energy had been expanded for naught. The canal through which was to have coursed the mighty powers to propel the machinery of great factories is now
